

## What is Flo-Form?

Flo-Form<sup>®</sup> is Spry's fluidized technology, which can be molded to any shape and will hold its form until it is remolded. Because of this unique characteristic, Flo-Form is an excellent medium for patient positioning and pressure redistribution.

### head positioning

---

- Supports the neck + shoulders to offload the occiput
- Protects the ears, nose, and face against shear and friction
- Supports the cervical spine
- Promotes neutral spine alignment
- Facilitates tube / line management

### body positioning

---

- Contours and supports the body to offload the scapula and sacrum
- Maintains therapeutic positioning
- Promotes neutral body alignment
- Facilitates tube / line management

Available Sizes: 12"x20" and 20"x28"
